

KUXEYA RESELLING

1-on-1 Reseller Guide - English Edition

1. Mindset & Setup

Pick one category to start (sneakers, apparel, perfume). Open a free reseller account on Vinted, eBay and Depop. Reinvest your first 3 profits before withdrawing.

2. Sourcing from Verified Suppliers

Use the Kuxeya Supplier Vault. Always order one sample before bulk. Check sizing, smell and stitching. Negotiate shipping after the second order.

3. Pricing Formula

Sell price = (cost + shipping) x 2.3, then round to .99. For hyped pieces use comp-based pricing from the last 5 sold listings.

4. Listing Mastery

Use 6 photos minimum: front, back, sole/tag, defects, on-model, packaging. Title formula: Brand + Model + Size + Color + Year.

5. Shipping & Returns

Always insure orders > 60 EUR. Ship within 24h. Save tracking screenshots. Decline returns on worn items politely with a template.

6. Scaling to 1,000 EUR / Month

Reinvest 70% of profit for the first 90 days. Track every flip in the Profit Tracker. Add a second category once the first hits 10 sales/week.
